

HOMEGROWN ARTS ALLIANCE

Connecting professional artists
with their hometown communities

JULY 2020

ABOUT US

The HomeGrownArts Alliance connects professional artists and their hometowns. Artists offer their time and talent through online classes to the communities that gave them their start. Hometown communities gain access to exclusive training and resources through the "HomeGrown" artists who proudly represent them on the professional stage.

Our goal is a symbiotic virtual arts community with a broad exchange of creative resources, ideas, and a shared investment in the unlimited legacy of local arts.
